Tomball, Tx 77375

Dear David,

Tonight when I got home, my air conditioner had gone out and I was frantic because I could not remember who I had used last time and had remembered putting a star beside the company because they had been so honest. I tried to find the old invoice and wasn't able to so finally I found the old telephone book and there it was Air of Houston.

I was so pleased because after talking to Sandra, she said she would send someone out as soon as possible and we could not have been more pleased at getting Randy Harper. I want you to know how much I appreciate having an honest technician and although he was tired and it was late, he was so pleasant and my husband and I were so impressed with him. It says a lot for your company and believe me I will recommend Randy and Air of Houston. My thanks go to Randy and Sandra. We really appreciate your company.

Thanks,

Donna Owens
